# Many options, but **what's best for you?**

## That's where we come in...

At Jardine Lloyd Thompson (JLT) Asia, we believe in listening to our clients, understanding their needs and creating insurance solutions that are suited to their unique circumstances. This is the platform on which all our client relationships are built.

# CHAIRMAN'S FOREWORD

It is my pleasure to welcome all of you on behalf of the Kuala Lumpur Bar Committee to our Annual Dinner & Dance 2007. Tonight is special because we are celebrating the 15th Anniversary of the Kuala Lumpur Bar and we look forward to a great evening.

The Kuala Lumpur Bar, the largest State Bar, takes this opportunity to thank all past Chairman and Committee members for their contribution in the last 15 years and their efforts bear testimony to the level of commitment and participation we now see from our present members in the various committees. I am also proud to be associated with the current serving committee members who have continued to give their utmost to serve the members.

It has been an interesting year for the KLBC and the new challenges we faced this year has made us stronger and more resilient to our cause. We will endeavor and strive to make a difference not only in the service we provide for our members but shall stand together on matters that are close to our hearts to effect change that maybe necessary.

I would like to take this opportunity to congratulate and thank the Social, Arts & Culture committee of the Kuala Lumpur Bar Committee for their tireless efforts in organising this special celebration. The theme for this year is Hollywood Nite. Like Hollywood, there are many shining stars at the Bar and to those who have made the effort to dress up in the Hollywood theme, you certainly shine even more, adding glamour to and enhancing tonight's special celebration.

The Kuala Lumpur Bar Committee would like to thank all members and the various sponsors for their contribution and support in making tonight a success.

We hope the evening will be a memorable one for all.

Chairman  
Kuala Lumpur Bar Committee 2007/08

THE ORGANISING COMMITTEE  
KUALA LUMPUR ANNUAL DINNER & DANCE 2007

On behalf of the Social, Arts & Culture Committee, I wish you a very warm welcome to the 2007 Annual Dinner and Dance of the Kuala Lumpur Bar. With all the celebrations going on in conjunction with the 60th anniversary of the Malaysian Bar, it can be forgiven that some of us may have overlooked the fact that we at the Kuala Lumpur Bar are celebrating our 15th anniversary!

A big thank you to all of you for your unwavering support year after year. Much credit for the success of this event is from all the hard work put in by the Secretariat staff, especially Ms Melissa Dass who has been of immense help to this committee in all its activities.

The Committee has planned an event filled evening tonight in this wonderful ballroom and we do hope that you have a very pleasant and enjoyable evening.

Ivan Wong Ee-Vern

***“Some legal firms  
know more  
than others”***

That extra knowledge adds immensely to customer satisfaction, trust and confidence in you and your firm.

Legal practitioners deal in matters ranging from sale and purchase transactions to debt recovery to giving advice on business arrangements and more.

*Information is key.* Hundreds of legal firms turn to *CTOS*. Financial institutions have successfully and effectively used *CTOS* as a source of *'lead information'* in their business. *CTOS* is an electronic database & archive of information collated from newspapers, gazettes, Registrars of Companies and Businesses and other publications and searches.

*CTOS* databases include:

- Malaysia & Singapore Bankruptcy*
- Civil Suits & Summonses*
- Petitioned & Wound Up Companies*
- Directors Of Petitioned & Wound Up Companies*
- Forced Sales Proceedings ... and more*

Information gathered is historical and does not give the *'current status'* of the cases. *CTOS* provide *'starting points'* for follow up actions that may yield deeper insights into individuals and companies.

You can choose to plough through countless hours and endless volumes of print to get the information *OR* get it with the greatest ease through the *CTOS* Electronic Database & Archive, instantly.

Some benefits of using the *CTOS* System :

- Provide better advice to your clients*
- Avoid duplicity and redundant legal actions and increase productivity*
- Eliminate unnecessary legal costs & time spent on redundant actions*
- Quick and easy access to useful 'lead information' ...and more*
